Foreword

It is my pleasure to present to you the 2018 Trade Directory of Zimbabwe.

As ZimTrade, we continue to energise Zimbabwe's export growth through the development and promotion of value-added products and services. For our trade to thrive, the first step is to provide relevant, timely, accurate and up-to-date information to existing and potential buyers of Zimbabwean manufactured products and services. The Trade Directory of Zimbabwe provides a platform for such information to be disseminated to buyers, investors, exporters and other stakeholders.

In line with the government's thrust to open up the country for trade and investment, the Trade Directory of Zimbabwe aims to exhibit the diversity and quality of Zimbabwean products and services to invite Foreign Direct Investment and Strategic partnerships. This will lead to increased demand in Zimbabwe's goods and services, globally and subsequently, growth in our exports. Exports contribute 60% of the country's foreign earnings while remittances, external loans and FDI account for 28%, 8% and 5% respectively.

ZimTrade is encouraging existing and potential exporters and importers to fully utilise the Zimbabwe Trade Information Portal for all their information requirements. This is an interactive website that provides up to date and relevant market intelligence, access to market analysis tools, trade agreements, market survey reports conducted by ZimTrade, a calendar of Trade Shows and other trade related updates. To access the Portal, log on to www.tradezimbabwe.com

It is my hope that this Directory will assist in accessing information about Zimbabwe.

Norman Savado

Acting Chief Executive Officer: ZimTrade

The Directory is divided into colour coded sections

1. General Information

This section gives relevant facts and figures on Zimbabwe, followed by a general overview of the Zimbabwean economy and key economic sectors. Contact details of various trade related institutions and organisations are also provided.

2. Useful Addresses

This section provides contact information for various business organisations i.e. Banking Institutions, Trade Facilitation Organisations, Selected Government Ministries and Departments, Foreign Representation in Zimbabwe, Zimbabwe Diplomatic Missions Abroad and Hotels.

3. Export Product Listing

Contains an alphabetical list of export product groups. Below each product group are the names of the exporting companies.

4. Import Product Listing

Contains an alphabetical list of import product groups. Below each group are the names of importing companies.

5. Services Listing

This section alphabetically lists services provided (export and import). Below each service group are the names of the service providers.

6. Company Profiles

Lists companies alphabetically. More detailed information is provided (telephone numbers, fax numbers, e-mail and website addresses as well as product/service descriptions).

About
ZimTrade

ZimTrade, the national trade development and promotion organisation, is a unique joint venture between the Private Sector and the Government of Zimbabwe. It was established in 1991.

Our Mandate

To energise Zimbabwe's export growth.

Our Aspiration

To contribute to Zimbabwe's growth and prosperity through developing and catalysing viable and sustainable exports.

Our Values

Focused
Bold
Connected
Trusted

How we grow **exports...**

Market Intelligence

We provide market intelligence through various channels such as the Trade Information Centre; In-house Publications (*Trade Directory of Zimbabwe, Newsletters and Trade User Guides*); as well as the Zimbabwe-EU Business Information Centre (Zim-EBIC).

Export Development

We nurture existing and potential exporters to become viable export entities.

Export Promotion

We promote the marketing of Zimbabwean products and services to the global market. We also facilitate and organise participation by local companies in Regional and International Trade Fairs as well as Trade Missions.

Advocacy

We engage relevant stakeholders in order to improve the ease of doing export business.

PREFERENTIAL TRADE AGREEMENTS

Zimbabwe has entered into both Bilateral and Multilateral Trade Agreements. The Trade Agreements offers duty free - quota free market access to qualifying goods.

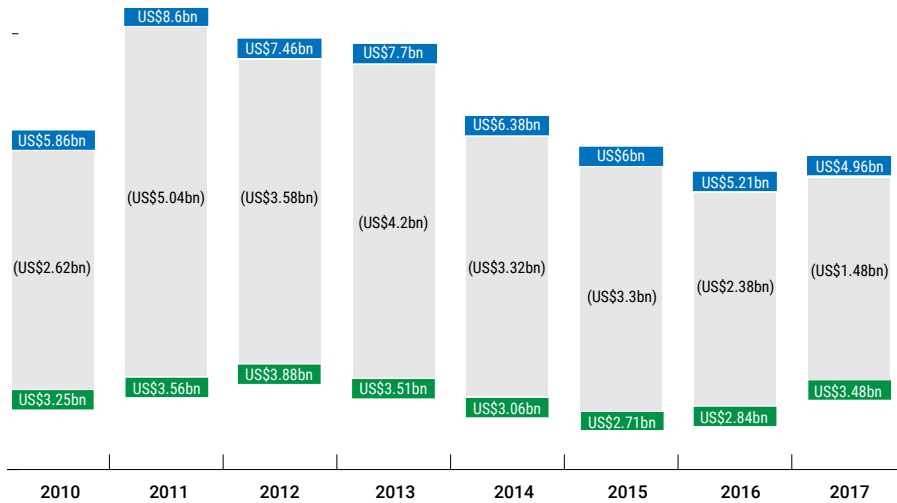

In the case of Multilateral Trade Agreements Zimbabwe is a member of:

- Southern African Development Community (SADC);
- Common Market for Eastern and Southern Africa (COMESA); and
- Interim Economic Partnership Agreement (iEPA) with the European Union.

Moreso, Zimbabwe has five (5) operational preferential bilateral trade agreements under which exporters can benefit. These are:

- Zimbabwe and Botswana;
- Zimbabwe and Malawi;
- Zimbabwe and Mozambique;
- Zimbabwe and Namibia;
- Zimbabwe and South Africa.

3 Zimbabwe in Brief: Key Economic Sectors

AGRICULTURE

Agriculture is the backbone of the Zimbabwean economy, with the potential to enhance economic turnaround prospects. There are strong backward and forward linkages between agriculture and other sectors of the economy. As advised in the 2018 Budget, Government is working on an incentive framework tailor-made to strengthen such linkages.

Agriculture provides direct and indirect employment to approximately 68% of the population; supplies 60% of the industrial raw materials and contributes about 39% towards export earnings.

Prospects for the 2017/18 agricultural season and production of the main crops (i.e. maize, tobacco, groundnuts, among others) remain positive. According to the 2018 National Budget, agricultural and forestry (GDP) grew by 14.6% in 2017 and the anticipated growth for 2018 was pegged at 10.3%. In addition, the expanded “Command Agriculture” Programme, to include soya beans and livestock production, is expected to sustain growth of the sector.

Investment opportunities that exist in the sector include contract farming arrangements, financial and technical services provision, infrastructure rehabilitation and development (e.g. irrigation); agro-processing as well as agro value chain development. Opportunities for value addition are in the horticulture, tobacco, cotton, sugar milling and forestry sectors, among others. Zimbabwe has one of the best climates in the world with good weather conditions and quality soils amenable to the growing of numerous horticultural products. Major horticulture products include mange tout, sugar snaps, green beans, peaches, nectarines, citrus, strawberries and cut flowers, among others. The major export destinations include The Netherlands, United Kingdom, Belgium, Ireland, France and South Africa.

TOURISM

Zimbabwe, known as “A World of Wonders”, is regarded as one of the top travel destinations in the world. Home to the Victoria Falls, Zimbabwe has a diversity of attractions which include 4 other UNESCO World Heritage sites such as Great Zimbabwe, Khami Ruins, Mana Pools, and Matopos. Other attractions include Lake Kariba, Eastern Highlands and over 26 game parks and safari areas strewn across the country.

The tourism sector has shown resilience over the years, and according to the Zimbabwe Visitor Exit Survey (VES) Report 2015/16 over 2.1 million tourists visited the country between July 2015 and June 2016 bringing \$800 million in revenue. Further outlook is promising with Zimbabwe being declared the top African Destination for 2017 by the world acclaimed travel magazine, “Conde Nast Traveler”.

The same resilience has been demonstrated in the country’s conservation initiatives which has seen effort in promoting biodiversity being ramped-up. The thrust for 2018 will be on promoting and improving the Zimbabwean Brand as a competitive tourist destination under the theme “International Year of Sustainable Tourism for Development.”

The Zimbabwean Government declared Victoria Falls a Tourism Special Economic Zone. This is meant to promote investment in tourism infrastructure around the area. Furthermore, the Victoria Falls International Airport was modernised and refurbished to double its annual capacity to 1.5 million passengers, making it a potential travel hub in Southern Africa.

Zimbabwe, in partnership with Zambia, re-launched the Kaza Uni-Visa in December 2016. The Uni-Visa facilitates easy movement of tourists between the two countries and is set to expand with the view of incorporating all SADC nations.

MEIKLES

— Zimbabwe's Premier Hotel —

Since 1915, Meikles Hotel has been regarded as Zimbabwe's premier hotel. Today it is recognised as a member of The Leading Hotels of the World. Gracious charm and a vibrant culture are showcased to perfection at this legendary and internationally acclaimed establishment. Meikles Hotel is situated in Harare's Central Business District, overlooking Africa Unity Square gardens.

BANKING

The Reserve Bank of Zimbabwe (RBZ) is at the apex of the banking sector, and is mandated with the licensing and supervision of banking institutions in the country. The RBZ has been seized with putting in place measures to strengthen the banking sector as well as restoring confidence in the economy. In this regard, it has implemented policies geared towards increasing domestic output and productivity, necessitating increased export earning capacity for the economy.

In order to enhance competitiveness and boost the country's export earnings, the RBZ introduced the Export Incentive Scheme in May 2016. This export subsidy is an important monetary policy tool to manage the internal devaluation for export competitiveness. Since inception of the scheme, cumulative foreign currency receipts have continued to increase indicating a positive impact that the scheme has had on foreign currency receipts, particularly from exports.

To ensure increased access to formal financial services for the general population the RBZ launched the National Financial Inclusion Strategy on 11 March 2016. The overall objective of this strategy is to increase the productive capacity of the various interest groups such as women, youth, the disabled. In addition it is aimed at enhancing the proportion of banked adults from 30% in 2014, to at least 60% by 2020. Against this backdrop the RBZ has put in place various sector-specific productive facilities that include the youth empowerment fund, women empowerment fund, business linkages facilities and the SMEs gold development fund to meet the financial requirements under the Financial Inclusion Strategy.

Furthermore, the introduction of mobile banking and saving products has enhanced participation of more people in the financial sector, as it enhanced participation of the previously unbanked population.

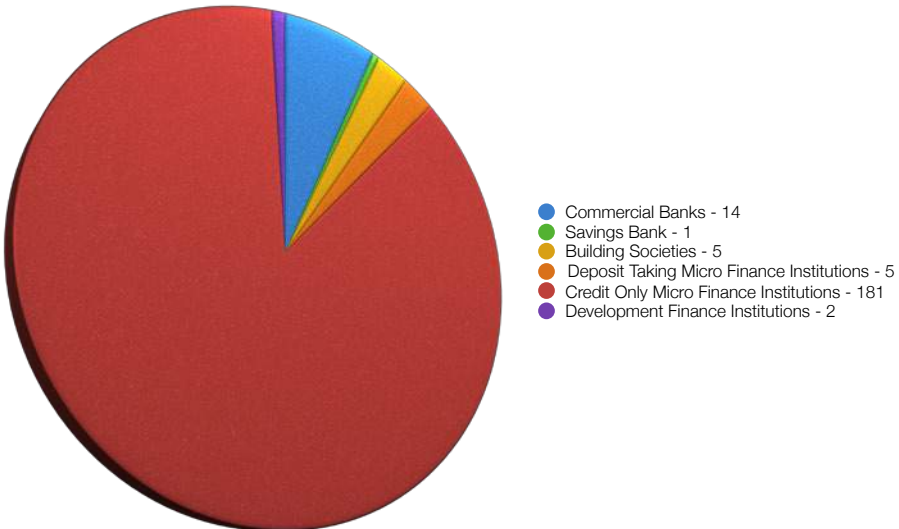

BANKING

Structure of the Banking Sector in Zimbabwe

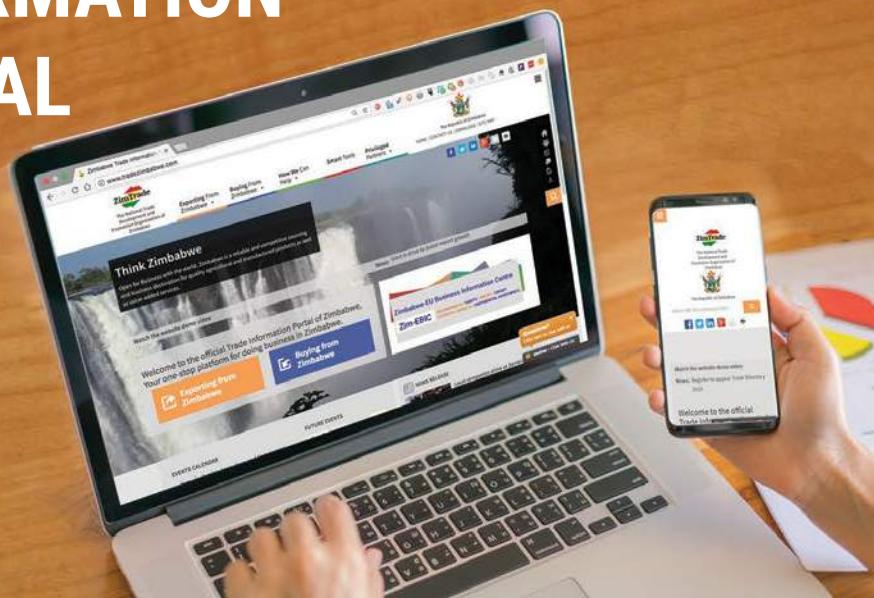

As at 31 December 2017, there were 19 banking institutions and other financial sector players as shown below;

The above financial institutions have over 4,500 branches and access points, including

sub-branches, agencies, high net-worth centres, and ATMs. The products and services offered by the banking institutions are complemented by products and services offered by Savings and Credit Cooperative Societies (SACCOS), insurance companies and the capital markets.

ZimTradeAlerts

info@zimtrade.co.zw

Endowed with over 40 different minerals, Zimbabwe is a mineral resource rich country. The country's geological make-up is dominated by two prominent features; the Great Dyke and the Greenstone Belts. The Great Dyke is a remarkable 550 km long geological body containing the world's largest deposits of chrome, the second largest reserves of platinum group of metals estimated at 4.4 billion tons as well as significant deposits of gold, copper and nickel. The Greenstone Belts account for some of the richest gold deposits in the world.

The country has the potential to develop into an international mining hub. Currently, Zimbabwe is prominent for mining gold, chrome, nickel and platinum group of metals where it currently contributes 6% of the world's primary production.

Sectoral growth for 2017 is estimated at 7.5% while export receipts are set to grow by 8.6% in 2018. The growth of the sector is meant to be accelerated by the lifting of the 4-year ban on export of raw chrome ore. The move is meant to increase earnings from this subsector while also improving the viability of small scale chrome miners.

The merging of the diamond mining firms and subsequent capitalisation of the Zimbabwe Consolidated Diamond Company is also meant to stabilise the relatively young Zimbabwean diamond mining sector and position it for future growth.

Government has also introduced 5% and 2.5% export incentives for small scale and large scale miners respectively. This move has spurred an increase in gold deliveries especially from the small-scale producers who are contributing 42.6% of total gold output.

The Information and Communication Technology sector in Zimbabwe comprises the following services: Fixed Telephone; Mobile Telephone; Mobile Money Transfer; Data and Internet as well as postal and courier services.

Zimbabwe has well-developed mobile telecommunications infrastructure, with several public and private players providing a diverse range of products and services. According to the sector's regulatory body, the Postal and Telecommunication Regulatory Authority of Zimbabwe (POTRAZ), the mobile penetration rate (active) increased by 3.5% to reach 100.5% from 97% recorded in Q3:2017. Over the same period, the internet penetration rate increased by 0.9% to reach 49.5%.

The number of active fixed telephone lines declined by 2.3% in Q3:2017 to approximately 260,183. The percentage decline is relatively higher in rural localities. Most of the fixed telephone lines in rural areas belong to local authorities as well as educational and health institutions. The fixed network continues to face competition from mobile networks. Current initiatives to launch fixed internet such as ADSL to rural institutions could revive the use of fixed telephone lines.

The use of data and internet services continues to increase in Zimbabwe. POTRAZ reported that Mobile Internet data usage increased by 39.1% to record 4,129 Terabytes. The growth in internet and data usage, especially mobile data, is due to internet marketing promotions as well as growing interest and use of social media.

There is also significant growth in ICT infrastructure. The total number of base stations in the country increased from 7,589 recorded on 30 September 2016 to 8,278 as at 30 September 2017.

ARTS & CRAFTS

Zimbabwean arts and crafts have long been a central and sophisticated part of the country's cultural heritage. Local sculptures, over the years have become widely recognised internationally. They have continued to make a meaningful contribution towards job creation and foreign currency earnings. According to research commissioned by the Zimbabwe Applied Arts and Crafts Association, the sector's contribution to household incomes ranges from US\$500 to US\$15 000 per annum depending on a number of variables such as, the type of art, cost of raw materials, volumes of pieces sold among others.

Zimbabwean arts and crafts are diverse and range from traditional to modern products such as pottery, basketry, textile (batiks), jewellery, metal and wire arts, paintings, wood carvings and stone sculpture amongst others. The art covers decorative aesthetics applied to various uses such as, utilitarian objects and objects used in religion amongst others.

The vast varieties of art and crafts as well as the exceptional skills portrayed in Zimbabwean art have been exhibited worldwide for many years. The major export markets for Zimbabwean art and crafts include South Africa (68%), United States of America (USA - 13%), United Kingdom (UK - 7%), Italy (2%) and Germany (1%). According to Trade Map, Zimbabwe exported works of art, collectors' pieces and antiques (HS code 97) worth US\$12.9 million in 2016. The global market for works of art, collectors' pieces and antiques, stood at US\$24 billion, with the largest buyers being USA and the UK. There is a huge global appetite for arts and crafts, hence there is room to grow Zimbabwe's export market share.

TRANSPORT

Zimbabwe is strategically positioned to provide a gateway to markets within the Southern African Development Community (SADC), the Common Market for Eastern and Southern Africa (COMESA), the East African Community (EAC) and beyond. It is linked to countries such as Mozambique, South Africa, Botswana, Zambia, Malawi, Tanzania and the Democratic Republic of Congo through the North-South Corridor.

The transport sector in Zimbabwe comprises four modes, namely: road, rail, aviation and pipeline. The national road network is about 95,000km, and the rail track network is about 2,760km. The country has six domestic airports and five international airports, the main ones being RG Mugabe in Harare, JM Nkomo in Bulawayo and Victoria Falls. Zimbabwe has an oil pipeline spanning over 280km, between Mutare and Harare.

The major national programmes and projects in transport include rehabilitation and maintenance of the existing road network as well as upgrading of the Regional Trunk Road Network (RTRN) to develop Zimbabwe into a regional hub. Government's major projects for the transport sector include, among others, the widening and rehabilitation of the Plumtree-Harare-Mutare road, which has been completed, the dualisation of the Beitbridge-Harare-Chirundu Road, as well as upgrading of the Beitbridge-Bulawayo-Victoria Falls and Harare-Nyamapanda roads. In aviation, there are plans to upgrade the Robert Gabriel Mugabe International Airport as was done at the Victoria Falls International Airport.

MANUFACTURING

Zimbabwe's manufacturing sector is quite diverse with various sub-sectors such as engineering, clothing and textile, leather and leather products, processed foods and beverages, packaging, building & construction, agricultural inputs, agricultural implements, furniture, pharmaceuticals and households & electricals. The sector plays a key role in the economy particularly in the value addition and beneficiation of the country's primary products (raw materials) from the agricultural (e.g. cotton, fresh produce) and mining (precious & base metals) sectors. According to the 2018 National Budget, the manufacturing sector is estimated to have grown by 1% in 2017, on the back of improved agro processing value chains in food stuffs, drinks and ginning.

Notwithstanding the challenges that Zimbabwe is facing mainly due to the liquidity crunch, opportunities for value addition exist in engineering products of iron and steel, leather manufacturing, clothing and textiles, wooden furniture, horticultural produce and agro-based commodities such as soya, wheat and maize.

According to the 2017 Confederation of Zimbabwe Industries (CZI) State of the Manufacturing Sector Survey, weighted capacity utilisation in the manufacturing sector declined by 2.3% from 47.4% to 45.1% in 2017, however overall output grew by 5.5%. The growth in output was recorded by companies whose machinery is less than 10 years old. The interesting paradox points towards an overall improvement in the manufacturing sector as the growth in output was recorded by companies whose machinery is less than 10 years old indicating an increase in maximum possible output for the sector. This points out that if most Zimbabwean companies get access to funding for capital equipment, the manufacturing sector will prosper going forward.

4 / About the Zimbabwe Revenue Authority (ZIMRA)

The Zimbabwe Revenue Authority (ZIMRA), is the organisation responsible for assessing, collecting and accounting for Zimbabwe's revenue. ZIMRA is a key trade facilitator and is responsible for customs regulation. It monitors and controls trade and movement of goods through all ports of entry and exit (i.e. border crossings and airports). The Authority also advises Legislators on issues to do with trade, taxes and revenue.

ZIMRA represents Zimbabwe in the World Customs Organisation (WCO) which has 182 member countries, whose mandate is to simplify and harmonise clearance procedures. It also hosts a regional training centre under the auspices of the WCO East and Southern Africa (ESA) Region.

Significant progress has been made towards mobilising technical assistance and capacity building to ease the flow of trade at ports of entry and exit. This role also entails putting in place strategies to combat smuggling and international trade crime. Trade facilitation is, therefore, done within the confines of protecting civil society from dangerous substances, narcotics, harmful drugs and other prohibited and controlled products.

The following are some of the measures which have been adopted by ZIMRA to enhance trade facilitation between Zimbabwe and the rest of the world:

KEY OBJECTIVE	MEASURES
Harmonisation	Chirundu One Stop Border Post between Zimbabwe and Zambia was launched in 2009.
Simplification	ZIMRA has a provision for pre-clearance of goods.
	The agency acquired non-intrusive inspection equipment in order to expedite the clearing of goods.
	Electronic lodgement of clearance documents can be done from anywhere in the world.
Integrity	ASYCUDA allows easy and accurate collection of trade statistics.
	Enhanced system control and Intelligent Electronic Risk Management.

5 / Investment Opportunities in Zimbabwe

Zimbabwe offers plenty of investment opportunities in sectors such as mining, infrastructure, manufacturing, tourism and agriculture. The priority of Government in these sectors is on value addition and mineral beneficiation. In addition, investors should explore opportunities in consumer facing industries such as Retail, Information Communication Technology (ICT), Banking and Services as they have emerged as the fastest growing sectors in the country.

WHY INVEST

in Zimbabwe

Diversified
economy

⋮

Good basic
infrastructure

⋮

Highly skilled
labour force

Natural resources
endowment

⋮

Macro-economic
stability

⋮

Use of multiple
currencies

High literacy
rate

⋮

Centrally and strategically located in
Southern Africa

Investment Incentives in Zimbabwe

TOBACCO INDUSTRY AND MARKETING BOARD

FUNCTIONS & SERVICES

OVERALL FUNCTIONS

The functions and powers are derived from the Tobacco Marketing and Levy Act [Chapter 18:20] are:

- To control and regulate the exchange of all tobacco produced in Zimbabwe between growers and merchants;
- To promote, protect and maintain the sale of tobacco at all authorised selling places;
- To collate statistics relating to the provision, marketing, manufacture and consumption of tobacco;
- To distribute market studies and information relating to the marketing, manufacture and consumption of tobacco;
- To monitor all tobacco handling premises for pest control;
- To advise the Minister of Agriculture, Mechanization and Irrigation Development on all matters relating to the marketing of tobacco;
- To do all things which the Act or any other enactment requires shall be done.

SERVICES OFFERED

- Registration of all types of tobacco growers;
- Administration and control of the tobacco delivery system;
- Arbitration and sales supervision at tobacco floors in order to maintain orderly marketing;
- Classification of tobacco from which statistical information is derived and reports published;
- Collating and distribution information on production, consumption, manufacture and exporting tobacco;
- Conducting crops assessment surveys to determine national crop size and quality composition of the crop in advance of the selling season;
- Issuing of tobacco export and import permits;
- Licensing of tobacco buyers, auction floors, tobacco contractors and commercial graders;
- Monitoring and ensuring timeous and efficient shipment of tobacco exports;
- Monitoring and control of tobacco pests to ensure exportation of tobacco free from pesticides residues;
- Operating a centralised stop order system to all stake holders;
- Offering a sms platform for all stake holders;
- Operating Central Loans clearance system
- Offering crop production history for all registered growers.

Import Products
Listing

The background is a solid dark blue. In the lower half, there are several abstract, overlapping shapes in a lighter shade of blue. These shapes are filled with various white patterns: some have fine, parallel lines, some have a grid, and some have a dotted or halftone pattern. The overall effect is a modern, technical, and data-oriented aesthetic.

Package it. Perfectly.

Hunyani Paper & Packaging is an award-winning leader in the manufacture and supply of corrugated cartons, paper sacks, lithographically printed cartons and labels for some of the Southern African region's top brands (Delta Beverages, BAT, Innscor, Nestle, National Foods, Unilever, Dendairy and many more are testimony to this). Our new merger of the manufacture and printing divisions ensures super efficiency, export quality standards and greater capacity across our paper based packaging.

Visit our website - <http://www.hunyanizim.com> - for more details or contact us today to discuss your requirements.

Partners For Success

Border Timbers Limited, situated in Manicaland province, has been in the business of growing Eucalyptus and Pine plantations, sawmilling as well as producing Treated gum poles for over 50 years. The company is committed, through the use of a sound environmental policy, to quality and service as well as the future development and growth of Zimbabwe's Timber Industry.

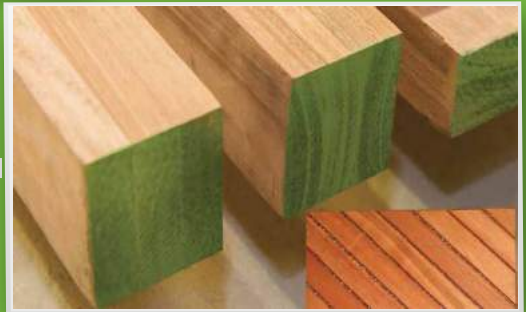

TREATED GUM POLES

Our poles product range comprises of Roofing, Fencing and transmission poles. All our treated gum poles are first air seasoned for not less than 3 months and pressure treated at moisture level not exceeding 25% with Creosote or CCA, to ensure maximum effectiveness.

SAWN EUCALYPTUS TIMBER

Sawn eucalyptus is processed from selected saw-logs harvested from plantation grown hardwoods. To ensure stability and best quality, the sawn eucalyptus is kiln dried under a slow, carefully well controlled kilning process to achieve a maximum moisture content of 14%

SAWN PINE TIMBER

Our product range varies from Roofing Timber, Furniture Grade and Industrial grade suitable for all woodworking applications. Only high quality logs are selected for milling to produce the highest quality sawn timber, kiln dried to the desired moisture level and graded according to Standards Association of Zimbabwe (SAZ) Specifications.

"We don't just make promises about quality and services, we keep them."
